

Technical Information Bulletin

PRODUCT IMPROVEMENT

Product: Tungsten Granulated
Part number: B1203, B1205 & B1210

Enhanced lifetime for Tungsten reduction reagent.

Elemental Microanalysis has developed a significantly improved tungsten reduction reagent for use in Elementar® Nitrogen/Protein analysers.

This reagent has increased capacity (lifetime) and provides an improvement of 20% (approx) over the product offered by the Original Equipment Manufacturer. **Achieve more sample runs before the reduction tube needs to be replaced.**

The Elemental Microanalysis products listed below have all been updated to the new material **at no additional cost.**

Part No	Description	OEM Part No
B1203	Tungsten Kit Complete 470g of Tungsten+25 Stainless Gauzes	12.01-0045
B1205	Tungsten Granulated 470g	12.00-0040
B1210	Tungsten Granulated (Bulk) 2.5 kg	n/a

All trademarks acknowledged. Use of the Elementar part number is for reference only and does not imply that the products are of Elementar origin.

All Elemental Products are guaranteed to be of high quality and suitable for use in the stated application.
